PROJECTS

RITlinks

🐙 github.com/klauscurde/ritlinks

🔗 https://ritlinks.cs.house

- Developed a website using Django and self-created Bootstrap 4 templates to dynamically generate a list of all the websites RIT makes available to students as well as their uses.
- Runs in a Docker container and is deployed on an OKD 4 cluster.
- Implemented administrator accounts to manage adding and removing content with drag-and-drop controls and forms.
- Helps new students understand which services do what, and was well received by incoming freshmen and current students.
